Hosting web

- Servicio que se le provee a los usuarios de internet para que estos puedan alojar sus páginas o archivos.
- Existen web host que pueden ofrecer estos servicios de manera gratuita o de pago.

Dominio web

- Un dominio web es un nombre único que identifica un sitio web en internet.
- Los servidores DNS se encargan de traducir el dominio web a la IP del sitio web para que sea accesible.

Herramientas utilizadas para la configuración de hosting web

- Hostinger
- FileZilla

Overview
Welcome to the homepage of FileZilla®, the free FTP solution. Both a client and a server are available. FileZilla is open source software distributed free of charge under the terms of the GNU General Public License
Support is available through our forums, the wiki and the bug and feature request trackers.
In addition, you will find documentation on how to compile FileZilla and nightly builds for multiple platforms in the development section.
Quick download links
Download FileZilla Client
All platforms
Download FileZilla Server
Windows only
Pick the client if you want to transfer files. Get the server if you want to make files available for others.
News
2017-04-30 - FileZilla Client 3.25.2 released
Bugfixes and minor changes:
